#### Summary for the EDI Lecture talk:

What does ED&I (equity, diversity and inclusion) mean to planning, landscape and architecture?

Who we are as individuals and organisations impacts how we design, the process and whether we create an inclusive built environment. If we understand the need for equity and inclusion and the part we can play, our future could be a different shape.

Grace will be exploring what ED&I means, within the context of architectural practice and education. She'll introduce an overview of ED&I, how we can offer a broader, relevant perspective for the design world, alongside inspiration from thought leaders and projects. She will also talk about her recent book, entitled Inclusion Emergency: Diversity in Architecture (co-edited with Hannah Durham, published by RIBA Publishing 2024).
