Vibrant and exciting, Newcastle is a city of bright lights and welcoming people, rich in heritage, alive with ideas and dreams.

Our safe city is known for the warmth of its welcome. A cosmopolitan place with a big personality – one in six people here is a student.

As one of the UK’s best student cities*, Newcastle’s eclectic mix of restaurants, comedy and music venues, bars and clubs can rival any European city.

And, because it’s also one of the UK’s most affordable cities**, with a low cost of living, low student rents, and a Metro rail service that’s easy on the pocket, you can spend your money on the things you love.

A special place

Newcastle is home to glorious green spaces as well as striking places, like the stunning Quayside where the city’s iconic bridges span the River Tyne. From our city-centre campus, explore the thriving multicultural arts and culture scene and discover the history, shopping, and sport that are so integral to our identity.

Be well connected

A stunning coastline, award-winning beaches and beautiful countryside are on the doorstep. Fast road and rail links keep Newcastle well connected to cities across the UK and London is less than three hours away by train. Direct flights from Newcastle to international hub airports including Dublin, London Heathrow, Dubai and Paris mean home is never far away.

*4th in the UK for city life, Whatuni Student Awards 2019
**Joint 1st for affordability in the UK, QS Best Student Cities 2019

‘At Newcastle I’ve been encouraged to think outside of the box; to really stretch myself’

For Taka there are no limitations to what she feels able to achieve now, as she approaches the end of her MBA at Newcastle.

‘I’ve come to realise that any restrictions I thought I had in life I’ve been putting on myself. In coming here, I’ve learned to be creative and innovative in how I respond to any issue in front of me,’ she said.

‘At Newcastle, I’ve been encouraged to think outside of the box; to really stretch myself.’

Taka was working for a financial services company in her home country of Nigeria when she decided to pursue an MBA.

She said: ‘It was a really hard decision for me to go back to being a student, but I had strong plans for my life – goals and dreams that I wanted to fulfil.

‘I knew I wanted to study in the UK, so I shortlisted the top universities and Newcastle was in that mix right from the start.

For Taka the outstanding aspect of her course has been the quality of teaching at Newcastle.

‘The experience and knowledge lecturers want to impact on you has been attained over many years and the way they simply and clearly distil that knowledge, in the best way for you to understand, is inspiring.

‘In one of the modules in particular the lecturer really brought learning to life, and showed how what we were learning as part of our MBA, really reflected and connected with things that are going on in the world.’

She added: ‘I knew I wanted to be part of a business school where I could develop the personal relationships that would help me throughout my time away from home – relationships with my professors, with my cohort.

‘For me it had to be Newcastle; the people here are amazing.’
In these last three years I’ve done some amazing things. I’ve been inspired by the people around me.

Changing disciplines has allowed PhD research student Fulvio to immerse himself in one of the biggest challenges of the 21st century – tackling the effects of climate change.

After completing a Master’s degree in structural engineering in his home city of Milan, followed by a year spent working in industry, Fulvio decided to return to his studies. He said: ‘I was really motivated to come to Newcastle and do a PhD in Civil Engineering (Water Resources) because I was really interested in the work. I’ve found all the structure and opportunity I was looking for here.’

He approached Professor Richard Dawson, who heads up the University’s Water Group – an academic group within the School of Engineering which works to make our coasts, cities and infrastructure safer and more sustainable for future generations.

Fulvio said: ‘It’s been a complete change of topic; I was a structural engineer and now I’m dealing with flood protection and strategic infrastructure optimisation. These are climate change related issues which, for me, is the challenge of the century – we cannot reverse climate change, so how do we deal with its often catastrophic effects?’

For his degree, Fulvio is building a multi-objective optimisation framework to improve the efficiency of a city’s emergency response during a flooding disaster.

He said: ‘When a natural disaster occurs – and due to climate change these are going to occur more frequently, and their impact be more severe – if you’ve optimised your emergency response, you can optimise your resources and be more sustainable.

‘If your systems are resilient enough, you spend less on resources during a disaster and your city returns to normal much quicker.’

Fulvio has been using the Humber estuary as proof of concept, but also got the opportunity to develop a further case study while on a five-month placement at the University of Auckland in New Zealand.

He said: ‘This was a chance to further international research exchanges among PhD students and early careers researchers and an opportunity to create new connections and build an international network between the two universities.

‘And that’s the amazing thing about Newcastle University – if you expose yourself to these opportunities it is absolutely the right place to be.

‘In these last three years I’ve done some amazing things. I’ve been inspired by the people around me and I’ve had the feedback and support that’s left me free enough to develop my own pathway, but still been there when I needed it.

‘I’m living the life I wanted to live.’
'The Founderships scheme gave me the platform to move from being a technical expert to becoming an entrepreneur.'

Newcastle University alumnus, Johnson, had a date with royalty last summer, thanks in part to the support he’s received from the University’s START UP Founderships scheme.

Johnson was among a select group of entrepreneurs invited to attend St James’ Palace for the prestigious Pitch@Palace initiative. Aimed at connecting some of the UK’s most exciting start-ups with potential investors, mentors and key business contacts, the event crowned a highly promising start to the graduate’s clean-tech company, Equiwatt.

Johnson, who completed his Master’s at Newcastle, followed by a PhD in electrical and electronic engineering, said: ‘Being asked to St James’ Palace was a massive endorsement and opportunity for Equiwatt, and it was the University’s Founderships scheme that gave me the chance to take my dream and make a business out of it.’

Equiwatt is an intelligent energy management platform that tracks household energy consumption, automatically switching off devices to save energy during peak times when electricity supply is inefficient, expensive or simply insufficient. It was born out of Johnson’s experiences in his home country of India, where power outages are not uncommon, and fuelled by his passion for energy storage and conservation.

‘My PhD looked at energy-efficient microelectronics architecture that could revolutionise design of microchips worldwide, no matter the application. It was while I was working on this that I started thinking about building a scalable technology business that could impact the world right now,’ he said.

‘The engineering and project management skills I needed for my business I got from my PhD and Master’s degree, but the Founderships scheme gave me the platform to move from being a technical expert to becoming an entrepreneur.’

With six months of funding and intensified business support as part of the Founderships package, Johnson set about launching Equiwatt, working with a START UP adviser to prepare a business plan, carry out market research and navigate the complexities of setting up a business in the UK as an international student.

He said: ‘Founderships is a business incubator scheme that helps you gain the skills you need – it gives you the right foundations, then it’s up to you to take your idea to higher and higher levels. ‘In the early days Founderships support was instrumental to Equiwatt’s foundation. Now we have proven the concept and we’re breaking into the market.’

He added: ‘It’s an exciting time and a nerve wracking one when you see something you have dreamt about starting to become a reality.

‘It’s a real rollercoaster ride running a start-up business.’

Outstanding careers support

Our global partnerships with national and multinational employers connect you to real-world opportunities and help to build a strong and exciting future.

Discover more and fast track your future career at ncl.ac.uk/study/your-future
World-class teaching and research
Immerse yourself in an outstanding teaching environment led by inspiring academics. We’re ranked 16th in the world for research power (REF 2014), so your work will be informed by our pioneering research at Newcastle. 96.5% of our students are satisfied with their teaching from our expert lecturers**.

Skills to set you apart
Become workplace ready through internships and work experience placements, developing the skills and experience employers are looking for. We’re ranked top 10 in the UK for graduate prospects*** and we’ll prepare you for life after your degree. Build contacts and network with international, national and local employers during virtual and on-campus events and recruitment fairs.

Outstanding study support
Be supported by our world-class experts and academics as you learn, and access a range of additional support – from our Maths Aid and Writing Development Centre, to our outstanding English language support programme and Language Resource Centre. 93.4% of our students are satisfied with the excellent quality of our learning support**.

Award-winning careers support
Be guided in developing and marketing your skills, in job searches and interview preparation by our award-winning Careers Service. For three years after graduation, our dedicated team will support you to secure the best start for your professional life. And if you want to launch your own business, our START UP advisers will help you realise your dreams.

High student satisfaction
Be at the heart of everything we do. The UK scores the highest for international student satisfaction among English-speaking countries, and at Newcastle our students gave us an overall happiness rating of 95.6%**.

Visa application support
Be supported and advised by our dedicated Visa Support Team. The UK is one of the most popular postgraduate study destinations in the world, and the new Graduate Route post-study work visa means you can live and work here for up to two years after completing your Master’s with us, or three years after a PhD.

As a Russell Group University ranked in the top 160 universities globally*, excellence comes as standard at Newcastle. Our outstanding reputation for high graduate employability and academic excellence makes us a first-choice destination for students from around the globe.

Be inspired by our world-leading research, become part of our vibrant community of change-makers and work with our passionate academics, research staff and students to help make a difference in the world.

Why choose Newcastle?

Explore more at ncl.ac.uk/postgraduate
There are many different funding sources available for postgraduate students but it can be difficult to know where to start your search. The table below summarises some of the main funding opportunities available to you, but remember to check out our website and funding database for the most up-to-date information.

### All students (all courses)

**Tuition fee discounts**
We offer a 2% tuition fee discount if you pay your annual fees in full before the end of registration week. We also offer a 20% discount on tuition fees for eligible alumni students.

### International students (all courses)

**International family discount**
We offer a 10% tuition fee discount to close relatives of Newcastle University students and graduates.

**External funding**
We participate in a number of prestigious scholarship schemes such as Chevening, Commonwealth and Fulbright, and jointly with these schemes offer full scholarships.

### External funding
We participate in a number of international loan schemes enabling eligible applicants to receive financial support.

### International students (Masters’ courses)

**Vice-Chancellor’s International Scholarships**
We offer full and partial tuition fee scholarships for outstanding students from a range of countries throughout the world.

**Vice-Chancellor’s Excellence Scholarships**

**Vice-Chancellor’s Global Scholarships**

### International students (Research degrees)

**Newcastle University Overseas Research Scholarships**
This award covers the difference between home and overseas tuition fee rates.

### Home students (Masters’ courses)

**Postgraduate Master’s Loan**
This loan scheme is for eligible students studying taught and research Master’s courses e.g. MA, MSc, MPhil, LLM, MBA. The Scheme is administered by the Student Loans Company.

**Bursaries and awards**
These are typically provided to help fund some of the additional costs associated with studying. A variety of organisations, including charities and trusts, offer bursaries and awards.

**Scholarships**
These are normally based on academic merit or specific eligibility criteria such as the course you are applying for. They can be funded or partially funded.

### Home students (Research degrees)

**Studentships**
These PhD opportunities normally have a fixed project title, named supervisor, and funding already in place. It is possible to do a studentship in an academic school or via a Doctoral Training Centre or Doctoral Training Partnership. See page 33 for more information.

**Postgraduate Doctoral Loan**
This loan scheme is for eligible students studying doctoral degrees e.g. PhDs, EdD. The Scheme is administered by the Student Loans Company.

### Funding website
Our dedicated postgraduate funding website lists all of the funding sources in one place. Simply enter some basic details about where you’re from and what subject you are hoping to study and the search will return the relevant funding sources. We update our website weekly, so opportunities may vary at any one time.

[ncl.ac.uk/postgraduate/funding](http://ncl.ac.uk/postgraduate/funding)
Entrance requirements

If you’re not a native speaker of English, and are a Tier 4 visa application student, you will need to show that you have adequate knowledge of written and spoken English before you begin your studies.

For direct entry to a Newcastle University course, you will typically need an overall IELTS score of 6.5 (or equivalent), but some courses may ask for a higher level of English language proficiency. You can check the language requirements for each course on pages 32–67 or online. ncl.ac.uk/postgraduate/courses

Tier 4 (General) visa application students also need to demonstrate proficiency at level B2 of the Common European Framework of Reference for Languages. This is equivalent to at least IELTS 5.5 in each of the four components: reading; writing; speaking; and listening. gov.uk/tier-4-general-visa

Alongside the IELTS test, we also accept a range of English language qualifications including Cambridge, Pearson’s and those from the International Baccalaureate organisation. Check for equivalencies online. ncl.ac.uk/international/language

Tests are normally considered valid for two years from the date the test was taken to the start date of your course.

Language support

We will consider your declared level of English competency as part of the registration process and make recommendations for tailored support.

Once you have started your course, we also offer a number of free services to help you continue to build your language skills while you study.

Free services include:
• in-sessional English language courses ncl.ac.uk/students/insessional
• tandem learning – partnering you with an English-speaking student who wants to learn your language
• access to online English language study materials – helping you with academic writing, grammar and vocabulary
• specialist courses to improve your writing for university study
• free access to our award-winning Language Resource Centre ncl.ac.uk/langcen

English doesn’t need to be your first language to succeed on a postgraduate course.

Our English Language and academic preparation courses will give you a solid foundation of skills on which to achieve great things. Sign up before your studies to prepare for your course, and benefit from the amazing language support we offer throughout your time with us, too.
INTO Newcastle University is a joint venture partnership between INTO University Partnerships and Newcastle University. It offers specialist programmes to prepare international students for their study at Newcastle University.

INTO offers personalised support services before, during and after your study journey. From settling in to UK life, to learning the skills you’ll need during your future course, INTO nurtures international students to be self-confident, independent, and successful in their future studies.

On-campus location

INTO Newcastle University is at the heart of our University campus and the bustling city centre. Everything you need is all within this modern learning hub, with state-of-the-art study facilities, on-site accommodation, and lots of areas for relaxing and making friends.

INTO Newcastle University offers:

- Graduate Diploma in Business, Humanities, Architecture, and Landscape Architecture, developing your knowledge and skills through active learning
- Pre-sessional English courses that prepare you for academic life and enhance your performance on your degree programme at Newcastle University
- Flexible Academic English course that meets your individual learning needs, with five tailored study levels to ensure you gain the language fluency and academic skills you need to succeed

ncu.ac.uk/ipc/study

**Type of programme** | **Content** | **Start date/enrolment**
--- | --- | ---
Graduate Diploma | Preparing you for direct entry to a number of postgraduate programmes across the University. Combines English language learning and academic study. | September and January.
Academic English | For students who want to improve their level of academic English, or to meet the language requirements for a degree programme. | Start dates throughout the year – September, January, April or July.
Pre-sessional English | For students already holding an offer to study at Newcastle who need to improve their language skills before starting a degree. | Courses are 6 or 10 weeks in length and are held in the summer months (start dates in June and July).
Driven by personal passions, real-world applications, and research that pushes boundaries – the pace of a taught Master’s can feel different to that of an undergraduate degree.

Most Master’s courses are full-time, and take place from September to September. Learning is fast-paced, thought-provoking, and pushes you to apply your own ideas and experience to your studies. Depending on the subject, teaching is delivered via a range of lectures, seminars, group projects, lab-based sessions, technical skills development, and practical experiments.

From start to finish, here’s what to expect…

Arrival and induction
Your first term typically starts in September, although a small number of our taught courses start in January.
Having arrived at your accommodation and registered as a student, we will help you spend the first week familiarising yourself with our campus, study environment and meeting your academic colleagues and fellow students before term time begins.
Your University induction will include a comprehensive overview of our facilities, including our libraries, wellbeing services and IT support. You will also have the opportunity to attend your academic school and subject inductions, to get a feel for your new learning environment. To find out more, visit our arrival website at ncl.ac.uk/pre-arrival.

Autumn term
Our timetabled courses run through the Autumn term and you will normally study compulsory modules that focus on building your core skills and knowledge in your chosen subject. The first term can seem quite busy as you settle into your new routines, but don’t worry, we provide lots of help and support to ensure your transition is as easy as possible. At the end of the Autumn term, you will break for the Christmas vacation, but will typically work across the holiday period preparing for exams and written assessments in January.

Spring term
Alongside compulsory modules, many courses offer a range of optional modules, often undertaken in the Spring term and enabling you to tailor your study to a particular field of interest.

Summer term
Many of the more formal timetabled elements of your course reduce now as you concentrate on planning and writing your research/project dissertation. The dissertation is normally between 15,000–18,000 words and provides the opportunity to put into practice all of the skills and knowledge you have acquired over the previous months.
We appreciate that your research project/dissertation is a big undertaking, so we have tailored a comprehensive package of ongoing support, including research study skills modules and expert academic supervision.
You will normally submit your final dissertation/research project around August/September.

Graduation
Graduation normally takes place in December, and is the perfect opportunity to celebrate your postgraduate success with friends and family on our stunning campus.
After you graduate, you’ll still be a part of the Newcastle University community. You’ll join a worldwide network of influential alumni, so whichever path you take, you won’t be too far away from over 200,000 Newcastle graduates living in over 180 countries and independent states around the world.
Careers support doesn’t end when you take off your graduation gown, either. For three years after you graduate, you have access to our award-winning careers service, our ‘START UP’ business support for ambitious entrepreneurs, and a calendar of global networking events.
Once you have graduated, the UK’s new Graduate Route post-study work visa means you can live and work here for up to two years after completing your Master’s with us.
Secure your place at Newcastle University is just a few steps away. Follow instructions 1–5 below to apply for a taught Master’s course.

1. Choose your course
   Our postgraduate website has all of the information that can help you compare courses and make a decision that’s right for you. This includes detailed module outlines, subject facilities, entrance requirements, fees and funding opportunities, so you can really start to get a feel for what it’s like to study here:
   ncl.ac.uk/postgraduate/courses

2. Check the entry requirements
   As a guide, the minimum entry requirement for the majority of our taught Masters’ courses is an upper-second-class Honours degree (2:1) or international equivalent. Some courses accept a 2:2 Honours degree or equivalent. We also welcome applications from professionals with significant work experience.
   - Academic and English language requirements can be found at:
     ncl.ac.uk/postgraduate/courses
   - English language entrance requirements are also listed for individual courses on pages 32-67.
   - Guidance on the international academic equivalencies for most countries can be found at:
     ncl.ac.uk/international/country

3. Check for application deadlines and deposits
   These can be found online in the ‘How to apply’ tab for each course.
   ncl.ac.uk/postgraduate/courses

4. Apply online or via your education agent
   - Register via our secure applicant account and create a username and password.
   - Complete the application form – you can save and update as many times as you like before submitting.
   - Attach and upload your supporting documents.
   - Submit your application. You can track the progress of your application when it has been submitted.
   ncl.ac.uk/postgraduate/apply

5. Further guidance on how to complete your application
   can be found at ncl.ac.uk/postgraduate/apply/guide

Your offer
Our offer guide will help you with the following steps, as well as providing advice about applying for a visa and accommodation.

When we have received and considered your application, a formal letter will be sent to you/your agent by email informing you of our admissions decision:
   ncl.ac.uk/postgraduate/your-offer-guide

1. Accept your offer
   When you have received an offer you need to officially accept it to secure your place. You can do this online via your applicant portal login at:
   ncl.ac.uk/postgraduate/apply

2. What next?
   Conditional offer
   If you receive a conditional offer, you will need to work towards meeting the conditions of your offer, so that your application becomes unconditional. Documents relating to your offer can be scanned and uploaded online via your applicant portal login.
   OR
   Unconditional offer
   When your offer is unconditional you may need to pay a deposit or provide proof of sponsorship before we can confirm your place. If you need to pay a deposit, information on how to pay the deposit will be included in your official offer letter. You can pay online via your applicant portal login.

3. Confirmation of your place
   When you have met all of the conditions of your offer and paid your deposit if required, you will receive a ‘Confirmation of Place’ email. If you need to apply for a Tier 4 (general) visa you will also receive a ‘Confirmation of Acceptance for Studies’ (CAS) number, which you will need in order to apply for your visa.
   gov.uk/tier-4-general-visa/eligibility

4. Congratulations!
   You have now completed all stages of the formal application. Further information about what to do once your place has been confirmed can be found in our online guide at:
   ncl.ac.uk/postgraduate/your-offer-guide/pre-arrival
   This includes advice on how to register, and what to expect when you arrive in Newcastle. We will also send you regular email updates, so look out for these.

Supporting documents
You will need to submit:
- academic transcripts to confirm your degree or your progress and results to date
- a copy of the photograph page of your passport
- if you are not from a majority English language-speaking country you will need to include a copy of your English language test results e.g. IELTS
- certified translations (if your documents are not in English)
Types of research degrees

At Newcastle we offer a wide range of research degrees at doctoral level (e.g. PhDs, Integrated PhD and professional doctorates) and Masters’ level (e.g. Mlitt, MPhil and MRes). To help you find the right study option, see our ‘Degrees explained’ web pages.

Doctoral College

Our Doctoral College will support every aspect of your growth: academic, personal and professional. From interdisciplinary development programmes to wellbeing workshops, you’ll find all the opportunities you need to realise your goals.

The Doctoral College will also connect you to an inspiring network of peers, academics and support staff. Together we form a community that’s world class in many areas of research.

Make the most of your doctorate

As a research student at Newcastle, you’ll be part of something special. Collectively, our researchers are pushing the boundaries of knowledge into new realms. It’s your passion, curiosity and hard work that will make this possible.

At Newcastle, we will:

• support your academic success
• help you gain the skills and confidence to increase your impact
• enhance your career prospects
• enable your personal growth
• connect you to a network of research students, academics and potential employers

Faculty Research Development Programmes

Each faculty offers a researcher development programme for its postgraduate research students. We’ve designed your programme to help you:

• perform better as a researcher
• boost your career prospects
• broaden your impact

The exact content of your programme will vary, depending on your faculty and your individual needs. It’s likely to include:

• techniques for effective research
• methods for better collaborative working
• essential professional standards and requirements

Health and Wellbeing

We’ve made a huge investment in building a network of health and wellbeing services to support you. We offer:

• sports and fitness, including fitness classes, yoga and pilates, and team games
• free workshops on topics such as mindfulness and improving sleep
• a free wellbeing app to help you establish healthy habits
• information on local doctors, dentists and NHS services
• advice to help you manage your finances
• practical and emotional support for student parents
• LGBTQ+ social and support groups
• places of worship and spiritual support for all major faiths

From experiencing the first sparks of an idea, to working with supervisors who inspire you – the rewards that come with making an expert contribution to a subject that you are passionate about are limitless.
Your research journey

Step-by-step

1. Consider which research degree best suits your ambitions. [ncl.ac.uk/postgraduate/degrees]

2. Review our research groups and academic staff profiles online and consider whether their specialisms are a good intellectual fit with yours. [ncl.ac.uk/who-we-are/academic]

3. Refine your PhD research idea/project title so that it’s clear to the potential academic school or research institute what area you are hoping to specialise in. Or search for a pre-defined PhD studentship project. [See right >>>>>>>>

4. Don’t forget it may be possible to undertake a PhD studentship within a Centre for Doctoral Training or Doctoral Training Partnership. [See right >>>>>>>>

5. Check if you need to either contact a potential supervisor first or submit a research proposal without identifying a supervisor (for non-funded PhDs). See the ‘How to apply’ page of your research degree for more information. [ncl.ac.uk/postgraduate/courses]

6. Apply online. We accept applications throughout the year for non-funded PhDs. See the ‘How to apply’ page of your research degree for more information. [ncl.ac.uk/postgraduate/courses]

Further guidance on how to complete your application can be found at [ncl.ac.uk/postgraduate/apply/guide]

Studentships
If you don’t have a clear idea of a specific PhD research project, but know which area you would like to work in, then it may be useful to search for a project that has already been established. These normally have a named supervisor, a fixed project title and funding already in place. This type of project is typically referred to as a ‘studentship’.

See the ‘Fees & Funding’ page of your research degree online for more information. [ncl.ac.uk/postgraduate/courses]

Doctoral training centres and partnerships
It may be possible to undertake a funded PhD studentship via a Doctoral Training Partnership (DTP), Doctoral Training Centre (DTC) or Centre for Doctoral Training (CDT).

Being part of one of these means that you can benefit from the research expertise and training of a number of leading universities, academic schools and academics. These centres are often interdisciplinary and you may be able to collaborate with an industrial or commercial organisation.

You will study alongside a cohort of other PhD students. [www.ncl.ac.uk/doctoral-college/prospective-research-students/research-and-innovation/doctoral-training-centres-and-partnerships]

Post-study visa
The UK’s new Graduate Route post-study work visa means you can live and work here for up to three years after completing your PhD. Our dedicated Visa Support Team can help to ensure you are supported in your decision making and the application process. [ncl.ac.uk/postgraduate/visas]
At Newcastle, our long history of excellence in learning, teaching and research means you’ll benefit from a world-class education and leave prepared for your future career.

Whether you’re looking to study a taught Master’s or are searching for a research degree, this quick guide will help you choose the right postgraduate course for you.

All of our research and taught degree programmes are grouped into subject tables on the following pages. Each table lists the different award types, whether full time or part time, and English language requirements.

The fees listed for international and home students are for one year of study (2021-2022) only. If your studies last longer than one year your fee may be subject to annual inflationary increases.

To get more detailed information on the structure of our courses including modules, assessment methods, mode of delivery, and course-specific facilities, check online.
ncl.ac.uk/postgraduate/courses

INTO preparation courses
Our range of INTO preparation courses are listed on the following pages. Check online for full information about the courses offered by INTO Newcastle University.
ncl.ac.uk/ipc

Singapore
We offer a range of postgraduate degrees in Singapore, these are marked in this Guide. Check online for further details.

### Degree Program Overview

**Clinical and Health Sciences with Molecular Pathology**
- MSc, PG Dip, PG Cert, CPhD
- FT online
- Check online
- Check online
- IELTS 7.0 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Clinical Science (Medical Physics)**
- MSc
- FT
- Check online
- Check online
- IELTS 7.0 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Clinical Science (Physiological Sciences)**
- MSc
- FT
- Check online
- Check online
- IELTS 7.0 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Medical Sciences**
- MSc
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Biosciences**
- MPhil, PhD, MD
- FT/PT
- Check online
- 24,000–35,500
- IELTS 6.5 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Medical and Molecular Biosciences**
- MRes
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Molecular Microbiology**
- MRes
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Medical Sciences**
- MSc
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 6.5 in all sub-skills)
- Taught

**Biotechnology**
- MPhil, PhD, MD
- FT/PT
- Check online
- 24,000–35,500
- IELTS 6.5 overall (with a minimum of 5.5 in all sub-skills)
- Taught

**Biodegradation and Bioprinting**
- MRes
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 5.5 in all sub-skills)
- Taught

**Biotechnology and Biodesign**
- MRes
- FT
- 11,400
- 24,300
- IELTS 6.5 overall (with a minimum of 5.5 in all sub-skills)
- Taught

**Biotechnology and Business Enterprise**
- MRes
- FT
- 8,100
- 23,400
- IELTS 6.5 overall (with a minimum of 5.5 in all sub-skills)
- Taught

**Business and Management**
- Business and Management
- MPhil, PhD
- FT/PT
- Check online
- 18,000
- IELTS 7.0 overall (with a minimum of 6.5 in writing, and 6.0 in all other sub-skills)
- Taught

**Accounting, Finance and Strategic Investment**
- MSc
- FT
- 8,100
- 22,200
- IELTS 6.5 overall (with a minimum of 5.0 in all sub-skills)
- Taught

## Postgraduate Guide 2021

### Civil Engineering (Structural)
- **Degree**: MPhil, PhD
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: 24,600–32,900
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Civil Engineering (Transport)
- **Degree**: MPhil, PhD
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: 24,600–32,900
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### International Graduate Diploma (Business and Humanities) INTO Newcastle University
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: Check online
- **IELTS**: 5.5 overall (with a minimum of 5.5 in all sub-skills)

### Smart Systems Engineering
- **Tuition Fees**:
  - **Home**: 12,000
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Transport Engineering, Planning and Management
- **Tuition Fees**:
  - **Home**: 11,400
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Civil Engineering (Water Resources)
- **Degree**: MPhil, PhD
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: 24,600–32,900
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Hydrogeology and Water Management
- **Tuition Fees**:
  - **Home**: 11,400
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Hydroinformatics and Water Management (Euro Aquae)
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: Check online
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Hydrology and Water Management
- **Tuition Fees**:
  - **Home**: 11,400
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Classics and Ancient History
- **Degree**: MPhil, PhD
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: Check online
  - **International**: 18,000
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Computer Science
- **Degree**: MPhil, PhD, Integrated PhD
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: 12,000
  - **International**: 24,000
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Data Science
- **Degree**: MSc, PG Dip, PGCert
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: 12,000
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

### Data Science (with specialisation in Artificial Intelligence or Statistics or Visualization)
- **Degree**: MSc, PG Dip, PGCert
- **Level**: FT/PT
- **Tuition Fees**:
  - **Home**: 12,000
  - **International**: 24,300
- **IELTS**: 6.5 overall (with a minimum of 5.5 in all sub-skills)

Disclaimers and acknowledgements

Although great care is taken in compiling this Postgraduate Guide, it is for the general guidance of prospective students only. This publication is intended for those who are interested in applying for admission to the University in 2021 and is intended as advance publicity for information and guidance purposes only. Details included are correct at the time of publication in November 2020. The most up-to-date and detailed source of information at any time is the postgraduate website at ncl.ac.uk/postgraduate

The matters covered by this publication are subject to change from time to time, both before and after a candidate’s admission. Unavoidable changes may on occasion have to be made, affecting the availability of degree programmes, subjects, modules and options within degree programmes, and of additional opportunities such as placements, field trips and exchange visits. Reasons for change could include timetabling issues, changes in staff, requirements of programme-accrediting bodies, academic changes within subject areas, or due to minimum student numbers on a course.

The University makes all reasonable efforts to deliver the programmes of study and other services and facilities as described in its marketing material. However, it may be necessary to make changes to its provision in response to significant disruption, for example in response to Covid-19.

ncl.ac.uk/study/covid-19

Full details of the University’s terms and conditions, including reference to all relevant policies, procedures, regulations and information provision are available at ncl.ac.uk/pre-arrival/regulations

The University is not responsible for the content of any websites which do not form part of the Newcastle University domain (ncl.ac.uk) and whose addresses are given in this publication.

Equal opportunities

The University’s Equality Strategy is our public declaration of our commitment to develop a fully inclusive University community, which recruits and retains talented staff and students from all sectors of society equally.

ncl.ac.uk/who-we-are/equality

Alternative formats

We can provide information on any of our courses, and on student life in Newcastle, in alternative formats. Please contact Student Services for more information.

The University is committed to making our website, and the material provided on it, as accessible as possible.
